SUMMARY

Senior Product Manager with 10+ years shipping growth, monetization, and creator-ecosystem products at scale across gaming and live-streaming. Proven record of driving +42% revenue growth, 2.3× engagement lift, and collapsing 200+ monthly ops hours to under 1 through data-driven product strategy. Currently leading product strategy at NEXON KOREA while pursuing graduate studies in Data Science at Harvard and an MBA at UIUC Gies.

PROFESSIONAL EXPERIENCE

NEXON KOREA | Seoul, South Korea

Dec 2025 – Present

Senior Product Manager, Creator Partnership Team

- **Own** product strategy and roadmap for N-CONNECT, a structured creator reward and partnership program operating across SOOP, Chzzk, and YouTube — targeting 50+ salary-tier partners and up to 15 impact partners across a 5-season budget framework.
- **Designed** a three-axis Viewership Score system (Reach 40% / Quality 35% / Engagement 25%) with shortform correction multipliers, establishing the first standardized cross-platform measurement for creator performance at Nexon.
- **Negotiated** 2-year joint-business master agreement with SOOP (KRW 83M operational fee, barter/offset Drops model), coordinating legal, accounting, and platform stakeholders through 6 contract revisions to near-final execution.
- **Led** engineering, marketing, and operations teams to launch the N-CONNECT preseason (April 2026), driving cross-platform data collection and daily-active web engagement through real-time rankings, missions, and creator analytics.

SOOP Co., Ltd. (formerly AfreecaTV) | Seoul, South Korea

Feb 2016 – Nov 2025

Product Manager, Livestream Ecosystem Lead

- **Owned** the mid-tier creator ecosystem end-to-end for Korea's largest livestream platform, directly managing 5,000+ creators across discovery, onboarding, retention, and monetization.
- **Shipped** a gamified creator mission platform that reached 82% participation and drove +42% monthly revenue — now a core platform revenue line — through cohort-based A/B testing of reward loops.
- **Built** a personalized homepage recommendation algorithm using viewing history and intent signals, lifting homepage CTR 2.3× and session engagement +170%.
- **Engineered** an internal operations automation platform (Python, GCP, Supabase, REST APIs) that consolidated finance, creator support, and content review into one pipeline, reducing monthly manual ops from 200 hours to under 1.
- **Launched** a creator subscription service with iterated paywall UX and 4 tier structures, improving paid conversion +31%.
- **Delivered** a streamer instant-support system that cut partner funding approval time from weeks to days with 100% partner coverage.
- **Led** creator programs at G-Star and equivalent large-scale events, increasing event participation +60%.

MMXXII | Seoul, South Korea

2022 – 2024

Founder & Technical Lead

- **Founded** and led an early-stage digital studio shipping data-driven products from 0→1, owning discovery, prototyping, GTM, and vendor relationships.

- **Built** the core team, hiring process, and operational workflows; partnered with engineering contractors to deliver multiple consumer products end-to-end.

Paranoid Joy | Seoul, South Korea

2015 – 2016

Product Manager

- **Ran** mobile growth and retention programs for consumer products, driving +15% retention and –30% CAC through data-driven A/B testing, lifecycle marketing, and push strategy (Firebase, AppsFlyer).

highbrow | Seoul, South Korea

Oct 2014 – Mar 2015

Product Manager

- **Secured** 5+ strategic publishing partnerships and led G-Star booth operations reaching 50,000+ attendees, tripling brand visibility through targeted event programming.

Ntreev Soft | Seoul, South Korea

Oct 2012 – Aug 2014

Product Manager, Global Publishing

- **Led** localization and publishing strategy across Thailand, United States, and Japan; shipped 15 regionally-customized playbooks while maintaining a 98% QA score across markets.
